WHAT IS THIS TIMELINE?

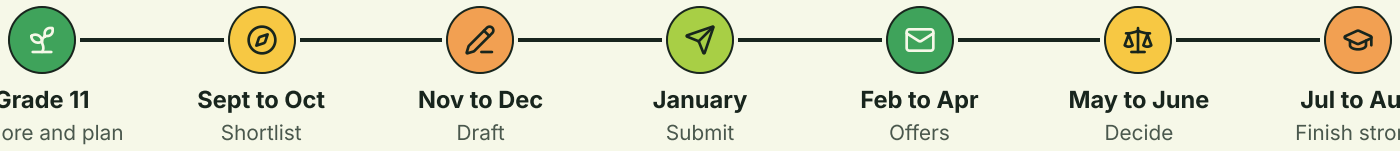

This timeline is a month-by-month checklist for applying to Ontario universities, starting in Grade 11 and ending the summer before you begin your first year. It is written for students applying for Fall 2027 entry, and it is built around the dates that matter most so nothing sneaks up on you.

Applying to university is not one big task. It is a lot of smaller ones: choosing programs, getting your documents ready, writing, asking for letters, watching deadlines, and responding to offers. They all land at different times, and when you can see them in order, each one feels manageable instead of overwhelming. Use this timeline to know what you should be doing now, what is coming next, and what you can safely leave for later.

The first seven sections follow the calendar. Section 8 is a reference table of program-specific deadlines at Ontario universities, grouped by field (business, engineering and computing, health, arts and social sciences, science and math, and creative programs), so a student applying to nursing and a student applying to architecture can both find their dates. The UPrep Ontario University Atlas has the full profile of each school.

To use it, find the month you are in, work through the checklist, and tick things off as you go. Copy the dates that apply to your programs into your own calendar. The companion Google Sheet, the UPrep Application Timeline Tracker, holds every date in this guide with a days-left countdown, a place for your own deadlines, and the checklists in a form you can tick off. If you are reading this late, that is okay. Start at your current month and treat the earlier sections as a catch-up list.

Your year at a glance

KEY TAKEAWAYS

- Start early. The OUAC application opened on September 17, 2026, and the Group A deadline is January 15, 2027.
- Your grades keep counting after you apply. Universities receive updated grades through the spring, and conditional offers depend on your final marks.
- Supplementary applications, scholarships, and residence have their own deadlines, so keep your own tracker.

IMPORTANT

The dates in this guide are for the 2026 to 2027 application cycle (Fall 2027 entry), based on the Ontario Universities' Application Centre (OUAC) published schedule. Supplementary application, scholarship, and residence deadlines are set by each university and can be different, so always confirm on ouac.on.ca and on each university's own website before you rely on a date.

SECTION 1

1 GRADE 11 (SPRING AND SUMMER)

GOAL **Get ahead before the rush.** Your Grade 11 spring and summer are the quietest, lowest-pressure time to prepare. Nothing is due yet, which makes it the best moment to figure out what you actually want to apply for. If you are already in Grade 12, use this section as a catch-up checklist.

Key dates: None yet. This is planning time.

- [ ] Choose your Grade 12 courses with your future programs in mind. Many programs require specific 4U courses (such as English, Advanced Functions, or the sciences), and a missing prerequisite can close off a program.
- [ ] Browse programs on OUInfo (ouinfo.ca), the Ontario universities' shared program search. Write down which programs interest you and what each one requires.
- [ ] Start your brag sheet. Fill in the UPrep Brag Sheet Template while Grade 11 is still fresh, and add numbers wherever you can (how many people, how often, how long).
- [ ] Pick one or two activities to deepen over the summer instead of adding five new ones. Depth reads better than a long list.
- [ ] Finish Grade 11 strong. Your final grades from completed Grade 11 and Grade 12 courses are included in your OUAC application.
- [ ] Visit campuses or attend virtual events to see which schools and cities feel right. OUEvents (ouevents.ca) lists events from Ontario universities.
- [ ] If you are considering a portfolio or audition program (architecture, design, visual arts, music, theatre, film), start collecting work now. Portfolios take months to build, and the best pieces are often ones you made before you knew you would need them.
- [ ] Write down which teachers know your work best. You may want to ask one or two of them for a letter or reference later.

TIP Fill out your brag sheet in the summer, not in December. It is much easier to remember what you did and why it mattered when it just happened.

For any questions or concerns contact us at hello@uprepcanada.ca
https://uprepcanada.ca/
www.instagram.com/uprep_advising/

SECTION 2

2 SEPTEMBER TO OCTOBER (START OF GRADE 12)

GOAL **Research, shortlist, and set up your account.** The OUAC Undergraduate application opened on September 17, 2026, so you can start building it now. You do not need to wait for January, and starting early gives you time to fix mistakes.

Key dates:

September 17, 2026	OUAC Undergraduate application opens
October 1, 2026	McMaster Engineering, Computer Science, iBioMed and Bachelor of Technology supplementary application opens
October 15, 2026	Schulich BBA supplementary application opens. Invitations to many video-based applications are sent after your OUAC application arrives, so submitting early unlocks them sooner.
Also	October to March 2027: Casper test dates for programs that require it (Western Engineering and McMaster Nursing). Western says there is no offer without a Casper result and results take about 3 weeks, so book a date early.
Late November 2026	Universities receive your midterm grades from the OUAC (see Section 3), so your fall marks matter right away

- [ ] Create your OUAC account at ouac.on.ca. Keep your login details and your OUAC Reference Number somewhere safe. You will also need your Ontario Education Number (OEN), which is on your report card. Your guidance office can help if you cannot find it. Make sure you enter your OEN, not your school's student number.
- [ ] Build a shortlist of programs. For each one, write down the prerequisites, how the admission average is calculated, whether there is a supplementary application, and whether it offers co-op.
- [ ] Know your limit. You can apply to as many Ontario universities as you like, but only up to 3 program choices at any one university.
- [ ] Plan for fees. The OUAC charges $159 for your first 3 program choices and $51 for each additional choice. Some programs add their own program fee. All fees are non-refundable.
- [ ] Check each program's admission page for a supplementary application (a form, written response, video interview, or portfolio). These often have their own deadlines and open on their own schedule.
- [ ] Check what each program asks for beyond your marks. It might be an essay, a video interview, a portfolio, an audition, a statement of interest, or a Casper test, and each one needs a different kind of preparation. Section 8 lists them by field.
- [ ] Start a deadline tracker. A simple spreadsheet works. Add every date the moment you find it.
- [ ] Attend information sessions or open houses for your top choices.
- [ ] Update your brag sheet with anything new from the summer.
- [ ] Keep your Semester 1 grades strong.

TIP A shortlist of 6 to 10 programs you actually understand is better than 15 you skimmed. Be able to say why each one is on your list.

SECTION 3

3 NOVEMBER TO DECEMBER

GOAL **Build, draft, and get organized.** This is where most of the real work happens. If you do the heavy lifting before the holidays, January becomes a final check instead of a scramble.

Key dates:

November 5, 2026	Deadline for the OUAC to receive electronic student data files from Ontario high schools
November 19, 2026	Deadline for the OUAC to receive midterm or final 4U/M grades from Ontario high schools
November 26, 2026	Target date for Ontario universities to receive those grades from the OUAC
November 6 and 7, 2026	Early consideration OUAC dates for Schulich BBA (November 6) and Rotman Commerce (November 7)
November 12, 2026	McMaster Engineering recommends having your OUAC application in by this date for early consideration
November 23 and 26, 2026	Early supplementary targets for Schulich BBA (November 23) and McMaster Engineering (November 26)
December 1, 2026	Recommended deadline for the U of T Engineering Supplemental Application, early deadline for Rotman Commerce required documents, and early deadline for the Daniels (Architecture and Visual Studies) applications (Daniels early dates apply to international and out-of-province applicants only)
December 8, 2026	Queen's Major Admission Award application deadline on SOLUS, for students who want to be considered for those awards

- [ ] Ask your guidance counsellor to confirm that your school has sent your information to the OUAC and that your course list looks right. Your school provides your grades to the OUAC, not you. After you submit, log in 1 to 2 business days later to check that your academic information has matched, and tell your counsellor about any errors. It may not appear until mid-November.
- [ ] Draft your supplementary application responses. Use your brag sheet to find your stories, then write your answers in your own voice. See the UPrep Supplementary Application Checklist.
- [ ] If any program or scholarship asks for a letter or reference, ask your teachers now, at least 4 weeks before the deadline, and give them your brag sheet. See the UPrep guide on asking for a recommendation letter.
- [ ] If any of your programs use a video interview, practise out loud with a timer, and record yourself once or twice to review. The UPrep Complete Kira Video Interview Guide walks you through this.
- [ ] Review your OUAC application line by line: personal details, school information, program choices, and program codes.
- [ ] Look up entrance scholarships at each of your universities. Some are automatic, and some need a separate application with their own deadline.
- [ ] Decide when you will submit. Aim to finish before the winter break.

For any questions or concerns contact us at hello@uprepcanada.ca
https://uprepcanada.ca/
www.instagram.com/uprep_advising/

TIP Aim to submit your OUAC application in December. Submitting early usually will not change how your application is read, but it means any technical problem, missing document, or payment issue gets solved with weeks to spare instead of hours.

SECTION 4

4 JANUARY

GOAL **Submit with time to spare.** January 15 is the date everyone remembers, but it is not the only one to watch. Several supplementary application deadlines fall on or soon after it.

Key dates:

January 15, 2027	Deadline for Ontario high school students (Group A) to submit a completed application to the OUAC. It is also the Ivey AEO application deadline (11:59 pm EST, a separate application).
January 21, 2027	Target date for Ontario universities to receive all application data and grades for applications submitted by January 15
January 28, 2027	McMaster Engineering supplementary application deadline (11:59 pm ET)

- [ ] Submit your OUAC application if you have not already, and pay the fee. Double-check your program choices before you pay.
- [ ] Save your OUAC Reference Number and a copy of your confirmation.
- [ ] Watch your email, your spam folder, and the Message Centre in your OUAC application for messages from each university. Many send a student number or a link to their applicant portal after your application arrives, and some supplementary forms cannot be opened until you have it.
- [ ] Complete and submit every supplementary application before its own deadline.
- [ ] Confirm that any letters or references have been submitted. Send a polite reminder if they have not.
- [ ] Thank the teachers who helped you.

Also due soon after January 15. Several of the most competitive programs set their supplementary deadlines after the OUAC deadline. Pick out the ones on your list:

January 20, 2027	Waterloo Pharmacy (PharmD) supplementary forms
February 1, 2027	Schulich BBA supplementary application; Rotman Commerce required documents; Waterloo Engineering Admission Information Form and video interview; McMaster Arts and Science (11:59 pm EST), Integrated Science and Leadership and Civic Studies supplements; McMaster IBH Kira interview; OUAC deadline for Queen's Commerce, Health Sciences and Nursing; Daniels (Architectural Studies and Visual Studies) final deadline; UTM Computer Science supplementary application; Western Music audition (CONFIRM)
February 7, 2027	Laurentian Architecture portfolio

February 14, 2027	Western Scholar's Electives supplementary application
February 15, 2027	Western Visual Arts portfolio; Waterloo Admission Information Form for Math, Computing, Financial Management and Science and Aviation; Queen's Commerce, Health Sciences and Nursing supplementary application (the most recent published date, so check the 2027 date)
February 28, 2027	Western SASAH Statement of Interest
March 1, 2027	Western CAM supplementary form; Carleton application date for its portfolio and supplementary programs (supplementary materials March 5); Queen's OUAC deadline for all other programs

NOTE The OUAC keeps processing applications after January 15, but each university sets its own cut-off for later applications, and spaces can be limited. If you are reading this after January 15, check each university's late application policy right away.

Group B applicants: January 15 is the deadline for Group A applicants (current Ontario high school students). Group B deadlines differ by university and program, so check each university's website. See the UPrep OUAC 101 vs. 105 Explained guide to find out which group you are in.

5 SECTION 5 FEBRUARY TO APRIL

GOAL **Keep your grades steady and stay organized while offers start arriving.** Offers come in on a rolling basis depending on the university and the program, so you may hear back from different schools at very different times.

Key dates:

February 11, 2027	Deadline for the OUAC to receive final grades available for 4U/M courses and current full-year grades from Ontario high schools
February 18, 2027	Target date for Ontario universities to receive those grades
April 22, 2027	Deadline for Ontario high schools to report midterm or final grades available for 4U/M courses and interim grades for full-year courses
May 3, 2027	Target date for Ontario universities to receive those grades

- [ ] Check your OUAC account and each university's applicant portal regularly. Offers, document requests, and notices show up there.
- [ ] Read every offer carefully. Many offers are conditional. They depend on finishing your courses with a minimum final admission average, and each offer lists its exact terms.
- [ ] Do not panic if a friend hears back first. Timing depends on the program, not on how strong your application is. For example, Waterloo says its Engineering and Mathematics faculties send offers between January and May, while most of its offers are made in May.

For any questions or concerns contact us at hello@uprepcanada.ca
https://uprepcanada.ca/
www.instagram.com/uprep_advising/

- [ ] Keep your Semester 2 grades up. Universities receive updated grades through April and into May, and your final marks decide whether a conditional offer stays valid.
- [ ] Submit any scholarship or award applications that have their own deadlines.
- [ ] Start researching costs: tuition, residence, and financial aid such as OSAP if you plan to apply.
- [ ] Respond quickly to any request for documents or information.

TIP Make a simple table with each university, program, application status, and response deadline. When offers start arriving, you will see everything in one place. The UPrep Offer Decision Guide has one ready to fill in.

SECTION 6

6 MAY TO JUNE

GOAL **Compare your offers and respond on time.** This is the decision stage. You will probably have more time than you think, but the deadline written in each offer is the one that counts.

Key dates:

May 28, 2027	The latest date you can expect a response (an offer, a refusal, or a deferral) from an Ontario university if you applied by the January 15 deadline
June 1, 2027	The earliest date an Ontario university can require you to respond to an offer or make a financial commitment, such as a registration or residence deposit
Early June	Many universities set residence deadlines around now. For 2027, Western lists June 3 for its residence placement questionnaire and prepayment, so check each university's residence page.

- [ ] Compare your offers side by side: program, courses, co-op, location, total cost, residence, and scholarships.
- [ ] Remember that you may accept scholarships or residence offers before June 1, but no Ontario university can pressure you to decide before that date.
- [ ] Respond to the offer you choose through your OUAC account. Log in, accept, and complete all three steps of the Review and Payment process. A residence deposit does not replace your official response.
- [ ] Decline the offers you will not accept. It is a courtesy and it keeps your account clear.
- [ ] If a response deadline has passed and you still want to accept, contact that university's admission office right away.
- [ ] Write down what each offer still requires from you before September, such as a minimum final average, documents, and deadlines.

TIP June 1 is the earliest response date, not a universal last day. Offers made later can carry later deadlines. Always go by the date written in your own offer.

For any questions or concerns contact us at hello@uprepcanada.ca
https://uprepcanada.ca/
www.instagram.com/uprep_advising/

SECTION 7

7 JULY TO AUGUST

GOAL **Finish strong and get ready for September.** An offer is only final once you have met every condition on it, so these last steps matter.

Key dates:

July 8, 2027	Deadline for the OUAC to receive final grades for 4U/M courses from Ontario high schools
July 15, 2027	Target date for the OUAC to send all remaining final grades to Ontario universities
August 2 to 31, 2027	The OUAC collects summer school grades from Ontario high schools and school boards

- [ ] Finish your courses and confirm with your guidance office that your final grades and proof of your diploma have been sent to the OUAC by the deadline in your offer.
- [ ] Re-read your offer's conditions (minimum final average, required courses, documents) and make sure you are on track to meet them.
- [ ] If you need a summer course to meet a condition, ask your school how and when those grades get sent.
- [ ] Complete your university's next steps, such as course selection, orientation, tuition, residence, and financial aid forms. These deadlines are set by each university.
- [ ] Update and thank your teachers, counsellor, and anyone who wrote a letter or helped you along the way.
- [ ] Keep your brag sheet going. It will be useful for scholarships, co-op applications, and your first university resume.

TIP Do not ease off once the offer arrives. Your final grades decide whether the offer holds, so protect them until the last assignment is in.

SECTION 8

8 DEADLINE REFERENCE BY PROGRAM FAMILY

Use these tables to pull the dates that apply to you into your own calendar. They list what is due beyond the OUAC form, and they come from each university's own pages as of October 11, 2026. Where a page still showed an older year, or a date could not be confirmed, the row says CONFIRM. The UPrep Ontario University Atlas has more on each school.

Business, commerce, and management

Program	What is due	Dates
Schulich BBA (York)	Leadership Profile, video interviews, and timed writing, all on Kira	Early: OUAC Nov 6, supplementary Nov 23. Regular: OUAC Jan 15, supplementary Feb 1
Rotman Commerce (U of T)	One written response and three video responses on Kira	Early: OUAC Nov 7, documents Dec 1. Final: Feb 1

Program	What is due	Dates
Queen's Commerce	One written and one video response on Kira	OUAC Feb 1, supplementary Feb 15 (CONFIRM 2027 date)
Ivey AEO (Western HBA)	Two activity essays, up to five more activities, verified references, and a five-question Kira video	Jan 15 (AEO2 Intent to Register Jan 28)
McMaster IBH	Six video questions and a resume	Feb 1
McMaster Commerce (DeGroote)	Optional written supplement	2027 date CONFIRM (a page showed April 30)
UTSC Management and Double Degrees	Supplementary Application Form	Check the Join U of T portal (CONFIRM)
Waterloo Computing and Financial Management	Admission Information Form	Feb 15
Laurier, TMU, uOttawa (Telfer), Carleton (Sprott), Guelph, Brock and others	Usually grades, with optional forms at some schools	Check each program page; many use Jan 15 or Feb 1

Engineering, computing, and technology

Program	What is due	Dates
U of T Engineering	Student Profile, with a 300-word written response and two videos	Recommended Dec 1
McMaster Engineering, Computer Science, iBioMed, Bachelor of Technology	Kira: three videos and one written question	Recommended: OUAC Nov 12, supplementary Nov 26. Final: Jan 28
Waterloo Engineering (not Architecture)	Admission Information Form and a one-question video (Software Engineering also has a form about programming experience)	OUAC Jan 15, forms Feb 1
Waterloo Mathematics and Computer Science	Admission Information Form	Feb 15
UTM Computer Science	One written response (achievements not on your transcript)	Feb 1
Western Engineering	Casper situational judgment test	Test dates run October to March; no offer without a result
uOttawa Engineering: Multidisciplinary Design	Portfolio link and a video interview	Check the program page

Health and life sciences

Program	What is due	Dates
Queen's Health Sciences (on-campus) and 4-year Nursing	One written and one video response on Kira	OUAC Feb 1, supplementary Feb 15 (CONFIRM 2027 date)
McMaster Honours Health Sciences	Written supplement, two prompts	Early to mid February (CONFIRM exact date)
McMaster Nursing	Casper	Check the program page
McMaster Integrated Science	Written supplement	Feb 1
McMaster Midwifery	Identity and Admissions Survey	Feb 1
U of T Kinesiology	Statement of Interest with one referee	Check the program page (CONFIRM)
UTSC Paramedicine	Supplementary Application Form	Check the Join U of T portal (CONFIRM)
Waterloo Pharmacy, Optometry, Social Work	Short supplementary forms (references for Optometry and Pharmacy)	Pharmacy Jan 20 (others CONFIRM)
Nipissing Nursing and Physical and Health Education (limited enrolment)	Application only	Equal consideration Feb 17 (CONFIRM)
Carleton Nursing and Social Work	Supplementary application	Application Mar 1, supplementary Mar 5
Laurentian Nursing	Application	Feb 1

Arts, humanities, and social sciences

Program	What is due	Dates
McMaster Arts and Science	Five written questions, up to 1,500 characters each	Feb 1 (11:59 pm EST)
McMaster Leadership and Civic Studies (Wilson College)	Supplementary application	Feb 1
Western SASAH	Statement of Interest, 750 to 1,000 words, and an optional 3-minute video	Feb 28
Western Scholar's Electives	Supplementary application	Feb 14
Western Administrative Studies (BA)	Pre-recorded video and a faculty recommendation based on an interview	Register for the interview by Feb 1
Huron and King's (Western affiliates)	Major scholarship applications (Huron Feb 1; King's additional awards Apr 30)	Domestic deadline Jan 15
Trent, Laurier, uOttawa, York, Carleton, Guelph and others	Usually grades, with optional profiles and scholarship forms	Check each program page

Science, math, and environment

Program	What is due	Dates
Waterloo Mathematics programs	Admission Information Form (contest results such as the Euclid are optional for admission)	Feb 15
Waterloo Science and Aviation	Admission Information Form	Feb 15
Western Integrated Science (WISc)	Application	April 2027 (CONFIRM)
McMaster Integrated Science	Written supplement	Feb 1
Guelph Landscape Architecture and Turfgrass	Background Information Form	Check the Guelph page
Most science, math, and environment programs	Grades and prerequisite courses	Jan 15 for Group A at most schools

Creative, design, and performance programs

Program	What is due	Dates
U of T Daniels (Architectural Studies, Visual Studies)	Architectural Studies: build an object from household materials and submit three photos. Visual Studies: 6 to 8 images and a 250 to 650-word statement	Feb 1 (early Dec 1 for international and out-of-province)
Carleton Architectural Studies, Industrial Design, Music	Portfolios (Music: Creative Practice Portfolio)	Application Mar 1, supplementary Mar 5
Laurentian Architecture	Portfolio	Feb 7 (fall only)
OCAD University	Portfolio, with writing samples for Visual and Critical Studies	Recommended Feb 1
Western Visual Arts	Portfolio	Feb 15
Western Music	Audition and interview	Feb 1 (CONFIRM)
Windsor Music, Algoma Music and Visual Arts	Audition or portfolio	Windsor: check the program page. Algoma: reviewed after an offer
UTM Theatre and Drama Studies	Audition	Check the program page (CONFIRM)
TMU Fashion and other Grades-Plus programs	Portfolio or other non-academic requirements	Check the program page (CONFIRM)

WARNING
Supplementary deadlines are the ones students miss. A missed supplementary deadline can end your application to that program even if your OUAC application is in on time. Put each date in your calendar with a reminder two weeks before and another one week before.

TIP If a program you want is not listed, search the university's admission page for the program name plus "supplementary" or "additional requirements." If you cannot find an answer, email the admission office and keep their reply.

TIPS, TRICKS & NOTES

Work backward from your deadlines
Start with January 15, then set your own earlier deadlines for drafts, letters, and a final review. Aim to be done in December.

Put every date in your calendar the day you find it
Add a reminder two weeks before and one week before.

Check your email and your OUAC account every week
Offers, document requests, and supplementary application links arrive there. Check your spam folder too.

Do not assume the OUAC deadline covers everything
Supplementary applications, scholarships, residence, and program-specific items often have their own dates.

Your grades keep mattering after you apply
Universities receive updated grades through the spring, and conditional offers depend on your final marks.

Do not compare timelines with friends
Different programs send offers at different times, and waiting is normal.

Keep copies of everything
Save your OUAC Reference Number, confirmation emails, and anything you submit.

Ask for help early
Your guidance counsellor, the university's admission office, and OUAC support can answer questions that a website does not make obvious.

Treat this timeline as a guide, not a rulebook
If a university's website gives a different date, the university's date wins.

IMPORTANT INFORMATION

UPrep provides guidance, strategy, and feedback to help students present the strongest possible application. Admission decisions are made solely by universities based on many factors outside anyone's control, and no specific outcome can be guaranteed. Dates and requirements change, so confirm everything with the OUAC and each university before you act on it.
